# Winter Apparel Receives Its Final And Deepest Price-Cuts

## Handsome, Stylish Coats, Suits, Etc. Are Now Marked at the Lowest Prices Known In Marshall For Many Seasons.

The scope of this clearance of women's winter apparel can be appreciated only by a visit to our store, and an inspection of the merchandise it comprises. So we strongly urge you to come personally to day—tomorrow—at your earliest convenience—and see for yourself how truly marvelous the values are.

There are several reasons that prompt this thorough and absolute clearance. First of all is the fact that this apparel is very much easier to dispose of now than it will be later on. That means a mutual benefit—to YOU because you can secure handsome and highly desirable apparel for a fraction of its value; to US, because we thus rid our stocks of merchandise that it would be unwise to carry over to next season.

The actual, bonafide savings that we now offer you are unrivalled and you could not even hope to duplicate them, under ordinary circumstances. To us, the advantage of clearing our stocks—reducing them to the lowest obtainable level—is fully worth the actual loss this sale entails. Stocktaking time is upon us, we look upon this sweeping clearance in the light of a house-cleaning, causing an immediate loss that is more than compensated for by the fact that we are enabled by it to start in again with only brand new goods.

This object is rapidly nearing its accomplishment, for stocks are diminishing daily. The selling throughout the month has been marvelously heavy, casting into shadow all previous records.

As lots grow smaller and smaller, prices are even more deeply cut in order to hasten their departure; and with a full knowledge of facts, we unhesitatingly declare that values are now greater than at any time during this sale.

However, you have no time to lose if you intend sharing in these rare values. There still remains a fairly comprehensive stock from which you'll have not a bit of difficulty in choosing a new and becoming suit or coat or dress; but it isn't wise to delay coming, for stocks are decreasing daily.
